

Introduction

This list contains all software products of the GO-IoT family that are not free of charge.

In addition to those our hardware products come with a whole stack of software, free of charge.

For details of each product item, please refer to our web page and data-sheets as informed with each item.

Ordering instructions

Please state "Item ID" and count of each item in your order.

Please supply us with full contact details for invoicing:

1. Name
2. Send-to address.
3. Billing address if not the same as Send-to address.
4. VAT-nr. If applicable.
5. Email address.

Please send your orders via our [contact page](#) or email order@go-iot.io

No more than two business days after your order we will send you back pricings of your ordered items. You can then confirm your order or cancel it.

For volume discounts please [contact us](#)

All prices are in USD.

Special Note: Preorders will start in October 2016.

Disclaimer

This product list may change without notice. We will constantly update it as new products are added or prices change. Please always use the newest version of this list downloadable from our web site.
